

MOTOTRBO™ XiR M8600i™ SERIES MOBILE RADIO

DIGITAL, NOW WITHIN REACH

The MOTOTRBO XiR M8668i Series is a family of DMR-standard digital radios that delivers operations-critical voice and data communications. This fully-featured mobile transforms your enterprise, delivering unrivaled voice and data communications with integrated Bluetooth audio and data, integrated GPS, text messaging and a full 4-line color display with day/night mode to make reading work order tickets and text messages easier. You also get best-in-class audio that includes Intelligent Audio and a customizable voice announcement feature with support for trunking as well as legacy analogue technology; you can keep your organization connected as it grows.

XiR M86600i Series radios are also ideal as a dispatch solution, with desktop microphones and a rugged, durable design for everyday use.

WHAT'S NEW IN THESE NEXT GENERATION RADIOS

- *Integrated Wi-Fi*
- *Over-the-Air software updates*
- *Bluetooth 4.0*
- *Indoor location tracking*
- *Multi-constellation GNSS for increased location accuracy*
